Appendix 1

Processing of personal data to combat money laundering and the financing of terrorism

We are part of the BNP Paribas banking Group ("Group") that must adopt and maintain programmes in respect of: (i) anti-money laundering and countering the financing of terrorism (AML/CFT); (ii) anti-corruption; and (iii) international Sanctions (i.e., any economic or trade sanctions, including associated laws, regulations, restrictive measures, embargoes, and asset freezing measures that are enacted, administered, imposed,

or enforced by the French Republic, the European Union, the U.S. Department of the Treasury's Office of Foreign Assets Control, and any competent authority in territories where BNP Paribas Group is established) ((i) to (iii) together the "Programmes"). The Programmes, which extend to all Group entities are managed, in part, centrally.

In this context, we act as joint controllers together with BNP Paribas SA, the parent company of the BNP Paribas Group (the terms "we" and "our" when used in this appendix therefore also cover BNP Paribas SA).

To comply with our legal obligations relating to the Programmes, we carry out the processing operations listed below:

- A Know Your Customer (KYC) programme reasonably designed to identify, verify and update the identity of our customers, including where applicable, their respective beneficial owners and proxy holders;
- Enhanced due diligence for high-risk customers, Politically Exposed Persons or "PEPs" (PEPs are persons defined by the regulations who, due to their function or position (political, jurisdictional or administrative), are more exposed to these risks), and for situations of increased risk;
- Written policies, procedures and controls reasonably designed to ensure that we do not establish or maintain relationships with shell banks;
- A policy, based on the internal assessment of risks and of the economic situation, to generally not process or otherwise engage, regardless of the currency, in activity or business:
 - o for, on behalf of, or for the benefit of any individual, entity or organisation subject to Sanctions by the French Republic, the European Union, the United States, the United Nations, or, in certain cases, other local sanctions in territories where the Group operates;
 - o involving directly or indirectly sanctioned territories, including Crimea/Sevastopol, Cuba, Iran, North Korea, or Syria;
 - o involving financial institutions or territories which could be connected to or controlled by terrorist organisations, recognised as such by the relevant authorities in France, the European Union, the U.S. or the United Nations.
- Customer database screening and transaction filtering reasonably designed to ensure compliance with applicable laws;
- Systems and processes designed to detect and report suspicious activity to the relevant regulatory authorities;
- A compliance programme reasonably designed to prevent and detect bribery, corruption and unlawful influence pursuant to the French "Sapin II" Law, the U.S FCPA, and the UK Bribery Act.

In this context, we make use of:

- o services provided by external providers that maintain updated lists of PEPs such as Dow Jones Factiva (provided by Dow Jones & Company, Inc.) and the World-Check service (provided by REFINITIV, REFINITIV US LLC and London Bank of Exchanges);
- o public information available in the press on facts related to money laundering, the financing of terrorism or corruption;
- o knowledge of a risky behaviour or situation (existence of a suspicious transaction report or equivalent) that can be identified at the Group level.

We may have to deal with special categories of data or criminal data since the objective is to combat money laundering and the financing of terrorism.

We carry out these checks when you enter into a relationship with us, but also throughout the relationship we have with you, both on yourself and on the transactions you carry out. At the end of the relationship and if you have been the subject of an alert, this information will be stored in order to identify you and to adapt our controls if you enter into a new relationship with a Group entity, or in the context of a transaction to which you are a party.

In order to comply with our legal obligations, we exchange information collected for AML/CFT, anti-corruption or international Sanctions purposes between Group entities. When your data is exchanged with countries outside: (i) the European Economic Area that do not provide an adequate level of protection, the transfers are governed by the European Commission's Standard Contractual Clauses; and (ii) the UK that have been assessed by the UK Government as providing a materially lower standard of protection, the transfers are governed by EU Standard Contractual Clauses together with the UK Addendum approved by the UK Government. When additional data are collected and exchanged in order to comply with the regulations of non-EU countries or the UK, this processing is necessary for our legitimate interest, which is to enable the Group and its entities to comply with their legal obligations and to avoid local penalties.

Appendix 2

Automated decisions

Some of our personal data processing is fully automated and leads to a decision about you without human intervention.

In this annex, you will find an explanation of the processing operations that involve an automated decision about you.

- Automatic decision to grant financing products and automatic determination of the financing conditions – financing products to professionals and companies.

In order to make this decision in an automated way, we base ourselves:

- on the data entered during the financing application (purpose of the financing product, amount, duration, identification information, etc.);
- on the data available to us in the context of our existing relationship and in particular, the data relating to the management of your financing agreements as well as the guarantees granted;
- on publicly available information as well as information that credit institutions are required to consult.

We make sure that the data we use is as up to date as possible.

The decision models on which the decision is based, combine your creditworthiness and your ability to repay, as well as your risk profile as determined by us (e.g. based on statistical models).

We adapt the models to the customer's profile and review them regularly.

The automated decision system will generate one of the below responses:

- Either your application is processed automatically and immediately. You will then receive an answer to your request (whether positive or negative). If positive, you will receive an offer from us, which you can accept by signing the financing contract.
- Alternatively, your application cannot be processed automatically (for example, if it exceeds the limits of what is allowed for an online application).

In any event, you have the right to challenge the decision, express your views and/or request the intervention of a competent person to review the decision.
